Skills

Python | Java | C | Javascript | R
HTML/CSS | Android Studio | Swift
Adobe Lightroom | iMovie | GIMP

Coursework

Principles of Functional Programming
Principles of Imperative Computation
Algorithms & Advanced Data Structures
Statistical Computing
Advanced Methods for Data Analysis
Modern Regression
Introduction to Statistical Inference
Introduction to Probability Theory

Experience

CMU Reasoning with Data | Teaching Assistant | *Fall 2019*

- Teach weekly labs to a section of 30 students. Grade homework and exams.

Albertsons/Safeway Corporate | Software Engineering Intern |

June 2019 – August 2019

- Worked on the mobile development team to transform their Trickle Sales web portal into a progressive web app with HTML, CSS, Javascript, and Java.
- Created a fluid, native app-like experience in the website without the need for cross-platform app development.
- Implemented installability features, responsive designs, and services workers, which improve speed and reliability and add a custom offline experience.

SAS | On-Campus Leader | *August 2018 – May 2019*

- Established on-campus connections to help promote the SAS brand and grow the community of SAS software users.
- Assisted with identification of student talent for SAS job/internship openings.
- Hosted SAS software demonstration events for student organizations (SWE, Data Science Club, Business Technology Group).

Projects

Colorpop | 15-112 Term Project

- Created a strategy brick popping game, including a tutorial and a timed mode. Generated levels of difficulty with backtracking. Used Python.

PennApps | 2019

- Created inTune, an iOS application that serves as a calendar of music journal entries. Users input a song that they feel best represents their day, and can also select specific lyrics. Used iTunes API for song look-up and playback, Musixmatch API for lyrics, and Swift.

Codeday | 2017

- Created HexFit, an Android application that determines complementary colors to an uploaded image of a clothing item by analyzing each pixel to find the overall dominant color. Used Java and Android Studio.
- Won “Most Developed Application” Award.

Organizations

Carnegie Mellon Informatics & Mathematics Competition | Logistics Committee |
February 2019 – present

Society of Women Engineers | *August 2018 – present*

Jazz Vocal Ensemble | *January 2020 – present*

Honors and Awards

CMU Dean's List with Honors | *Fall 2019*

NCWIT Aspirations in Computing SF Bay Area Affiliate Award Winner | *2018*

1st Place in the U.S. Open Music Competition | *2018*
